

# Gavin Mitchell

CEO & Technical Trainer

## Summary

Following nine years of communications electronics in the R.A.F., Gavin has since spent over twenty years in the mobile telecoms industry. His main focus in his technical training role at Mpirical is around the 4G and 5G Core, as well as holding extensive knowledge on the operation of IMS based VoLTE and VoNR networks. Beyond his training role, Gavin fulfils the role of CEO at Mpirical.

**Vetted to NPPV1 standard.**

## Professional Capabilities

Development and delivery of Mpirical's training portfolio, including a number of vendor specific solutions. Key areas include:

- Introductory training on all generations of cellular.
- System engineering level on 4G, 5G and IMS Voice solutions.
- 5G related topics including Private 5G, Network Slicing, Policy Control, Transport Networks and Open RAN.
- Detailed signalling analysis of LTE EPC, 5GC and VoLTE/VoNR core networks.

## Additional Skills and Strengths

- Strategic planning for future course portfolios.
- Project management for customer training solutions.
- Effective team player and motivator.
- Proven track record in developing complex training programs in the fields of instructor led, web based and video training.
- Excellent written and oral communication skills, both in front of the class and on camera.
- Significant breadth of knowledge across the mobile industry.

# Professional Experience History

- Director.
- Training Manager.
- Senior Trainer.
- Royal Air Force Engineer.

# Education

- MSc in Mobile Telecommunication Engineering.
